with more than 600 million ios devices sold apple s booming mobile platform provides a immense and continuously growing app market for developers and with each update to the ios sdk apple offers the richest set of additional developer tools ios 7 0 is no exception ios programming expert richard warren shows you how to use these powerful tools to begin writing the next generation of ios apps you will hone your development skills by creating a complete full featured mobile application you ll learn to build an intuitive and beautiful user interface beginning with linking view controllers in the storyboard and then adding custom drawn views next you will learn how to use icloud storage and core data to manage an app s data model synchronizing data across multiple devices then you will learn ways to make your app stand out using more advanced ios techniques like uikit dynamics and uimotioneffects finally richard shows you how to prepare your app for submission to the app store getting it in front of ios users around the world this book includes real world guidance and advice insight into the current best practices from an ios programming expert an essential introduction to the objective c language and cocoa design patterns coverage of key ios 7 0 technologies including the asset catalog dynamic fonts uikit dynamics uimotioneffects sprite kit and more

govtech is a key enabler of digital government as governments increasingly focus on how best to experiment with and adopt digital technologies such as artificial intelligence govtech offers a mechanism to do so in a way that is agile innovative and cost effective not only does this help improve the effectiveness and efficiency of the public sector but it can also foster the participation of start ups and newer providers in the government market however despite the value that countries see in govtech there are varying levels of maturity in its

implementation as such this publication presents the oecd s definition of govtech and sets out its govtech policy framework guiding countries on how to create the ideal conditions for govtech collaborations and determine the right scenarios in which to use govtech for maximum impact by using the oecd govtech policy framework as a guide governments can more confidently use govtech partnerships to enable a more effective and innovative digital transformation
